

Correction to the paper

A. Roza, M. Maggiore, and L. Scardovi, "A class of rendezvous controllers for underactuated thrust-propelled rigid bodies," in *Proceedings of the IEEE Conference on Decision and Control (CDC)*, December 15-17 2014, pp. 1649–1654.

Right before equation (7), we incorrectly reference the paper [1] by Wei Ren. The correct reference is Theorem 3.1 in [2].
